MERN STACK DEVELOPER

TECHNICAL SKILLS

Front-End Development : React | Redux | JavaScript | Bootstrap | Material-UI
Back-End Development : Node | Express | PHP | API's
Database : MongoDB | Firebase | MySQL | Oracle
Others : Data Structures and Algorithms | object oriented programming

PROJECTS

Social Media App | Instant Chat App

- Created a Social Media App featuring an integrated chat system and comprehensive authentication mechanisms.
- Integrated React with Redux for frontend functionality, alongside Express, Node.js, and MongoDB for robust backend operations
- Shared the app with friends, fostering an enjoyable and memorable experience as we explored its features together

Other Project's

- Weather API App to forecast next week data
- Amazon Clone for shopping
- Forum to discuss programming problems
- Visit **huzaifa273.github.io/portfolio** ↗ to see all the amazing projects

EDUCATION

**BS(Information Technology)	Bahria University**	Mar 2023 - present

- Studied Business Software planning, coordination, and efficiency
- Worked with various industries on launching efficient IT Systems

**Web Development	Masia Institute**	Nov 2022- Mar 2023

- Did a full stack web development course over the period of 4-5 months

WORK EXPERIENCE

|	
**Freelancer	Fiver Inc**	June 2022 - present

- Experience of more than 2 years in MERN stack applications
- Work for clients all across the globe
- Create a functional and technical application for Businesses

Partnership	Dec 2022 - Sep 2023

- Collaborated with a senior friend of mine on different projects on Fiverr
- Made Recommendations on Improvement based on my analysis
- Collaborated with my university peers on a Data Structures and Algorithms project

AWARDS & ACHIEVEMENTS

- Got 2nd position in Bahria University Web Application competition
- Successfully completed over 6 projects, ranging from small to large-scale(**Github**↗)
- Experience of 3+months on Oracle
